

# Solution to stimulate the equine immune system

Botanical Complex

Sequiterpenic Alcohols, Aliphatic Ketones & Iridoid Glucosides

## What is **förblod active defense**?

Powerful botanical complex to stimulate the immune system in high performance horses based on Sesquiterpenic Alcohols, Aliphatic Ketones & Iridoids Glucosides, developed with the most advanced phytotechnology.

## To what **förblod active defense**?

Indicated to raise the defenses in equine athletes and protect them from foreign agents (viruses, bacteria, parasites) that can affect the health of your horse and leave them out of competition for long periods.

It is a 100% NATURAL product, which stimulates the production of antibodies, generating a defensive barrier (from the inside out) against infectious diseases. Your horse will stay healthy and active without the need for antibiotics.

## Why is **förblod active defense**?

Its exclusive formula combines vegetable active principles, with high concentrations of essential amino acids, minerals and vitamins, which strengthen the animal's immune system, increasing its resistance and natural vitality.
