

The most effective solution for Bovine Respiratory Disease (BRD)

Botanical Complex

Scrophulariaceae, Laminacea, Mirtaceae and Asteraceae

 **hölso**
bovine phytotechnology

What is **hålsa respiratory**?

It's a powerful botanical complex to treat the Bovine Respiratory Syndrome (SRB) on large animals with upper and lower respiratory tract problems, based on: Scrophulariaceae, Laminaceae, Mirtaceae and Asteraceae, developed with the most advanced phytotechnology.

For what **hålsa respiratory**?

Indicated for the treatment of acute and chronic bacterial infections that affect the respiratory system (pneumonia, broncho-pneumonia, transport fever, pneumonic pasteurellosis, fibrinous pleuropneumonia, rhinitis, tracheitis, bronchitis) that causes great economic loss.

Affected animals usually present: cough, mucus, lack of appetite and fatigue that compromises their development and productivity (in milk and meat).

Why **hålsa respiratory**?

Its exclusive formulation based on plant extracts, essential amino acids, minerals and vitamins, achieves a combined action that generates rapid relief on animals and an effective treatment against main diseases.

Bronchopulmonary expectorant and mucolytic. Antistaminic, anti-inflammatory, analgesic, and broad spectrum antibiotic.
