

**Solution to stimulant the bovine
immune system**

Botanical Complex

Aliphatic ketone & Iridoid Glucoside

 **hålsa**
bovine phytotechnology

What is **hålsa active defense**?

Powerful botanical complex to stimulate the immune system in high-bearing animals, based on Aliphatic Ketones & Iridoid Glucosides, developed with the most advanced phytotechnology.

For what **hålsa active defense**?

Indicated to raise the defenses of cattle and protect them from foreign agents (viruses, bacteria, parasites) that can affect health and compromise the growth and development of the animal.

It is a 100% NATURAL product, which stimulates the production of antibodies, generating a defensive barrier (from the inside out) against infectious diseases, since it alters the permeability of the bacterial membrane deteriorating its viability.

Why **hålsa active defense**?

Its exclusive formula combines active vegetable ingredients, with high concentrations of essential amino acids, minerals and vitamins, which strengthen the animal's immune system, increasing its resistance and natural vitality.

Your cattle will remain healthy and active without the need for antibiotics.

hålsa active defense
