

# Solution for the prevention and treatment of swine cattle anemia

Botanical Complex

Coumarins, Silice, Anthraquinones and Bioflavonoids

 **gryslie**  
swine phytotechnology

## What is **gryslie antianemic**?

Powerful botanical complex to prevent and treat the different types of anemias that affect pigs from birth to adulthood, based on Silice, Coumarins, Anthraquinones and Bioflavonoids, developed with the most advanced phyto-technology.

## For what **gryslie antianemic**?

In intensively raised piglets, neonatal iron deficiency (anemia) is common during breastfeeding, since breast milk does not cover the iron needs, necessary for its growth. To avoid the nutritional deficit and achieve accelerated development, the diet must be supplemented with nutritional supplements based on Iron and B complex.

Indicated for the prevention and treatment of iron deficiency in piglets, and adults with cases of acute and chronic anemias (due to deficits of Iron, Cobalt, Copper, Vitamin B1 and/or Vitamin B12). It's also use in anemias due to: hemorrhage, trauma, surgery, parasitosis and /or food.

## Why **gryslie antianemic**?

Its exclusive formulation based on plant extracts, essential amino acids, minerals and vitamins, accelerates the process of growth and development of red blood cells and hemoglobin, achieving a rapid recovery of the animal, improving weight and healing at weaning. It's also use as a restorative, in the therapy of anemias.

# **gryslie antianemic**

the leading brand in swine phytotechnology

With **gryslie antianemic**,  
your piglets gain weight and health!

#GryslieWorks

### Proven effectiveness - Visible results:

- Indicated to prevent and treat neonatal anemic, during breastfeeding in piglets
- Acts as a organic, general stimulant, generating a rapid recovery in cases of acute and chronic anemias
- Accelerates the recovery of infectious and parasitic diseases, associated with nutritional deficits
- Increases appetite and improves body development, to obtain higher quality meat and milk (pregnancy, lactation, pre and post weaning)
- Collaborate with the formation of healthy and strong skeleton
- Dietary supplement - No doping effect

### Application:

Additive to reinforce nutritional supplements

- 100% natural
- Clinically proven
- Quality guarantee
- Paraben free
- Cruelty Free
- Kosher Certification
- Halal Certification

Made in Argentina

 **gryslie**  
swine phytotechnology

The most effective natural solution to boost  
swine cattle
