

Solution to stimulate the swine cattle immune system

Botanical Complex Based on:
Lectins, Viscalbin, Saponins and Phenolic Acids

 **gryslie**
swine phytotechnology

What is **gryslie active defense**?

Powerful botanical complex to stimulate the immune system in fattening pigs, based on Lectins, Viscalbilin, Saponins and Phenolic Acids, developed with the most advanced phytotechnology.

For what **gryslie active defense**?

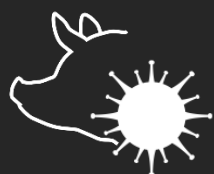

Indicated to raise swine cattle defenses and protect them from foreign agents (viruses, bacterial, parasites) that can affect health and compromise the growth and development of the animal, maximizing reproductive productivity and increasing disease tolerance

It is a 100% NATURAL product, which stimulates the production of antibodies, generating a defensive barrier (from the inside out) against infectious diseases, since it alters the permeability of the bacterial, viral and parasitic membrane, deteriorating its viability (reproducibility)

Why **gryslie active defense**?

Its exclusive formula combines active vegetable ingredients, with high concentrations of essential amino acids, minerals and vitamins, which strengthen the animal's immune system, increasing its resistance and natural vitality.

Your cattle will stay healthy without the need of antibiotics, corticosteroids, or pain relievers (steroids / non-steroids) by obtaining meat suitable for human consumption.

gryslie active defense

the leading brand in swine phytotechnology

With **gryslie active defense**,
your swine cattle gain protection and health!

#GryslieWorks

Proven effectiveness - Visible results:

- Stimulates and strengthens the immune system, increasing the body's defenses.
- Protects against the attack of viruses, bacteria and parasites, eliminating infection and reducing allergic conditions.
- Reduces the risk of sudden death caused by bacteria in the swine cattle.
- Adjuvant in therapies of acute or chronic infectious diseases, accelerating their recovery.
- Improves resistance to term stress.
- Dietary supplement - No doping effect.

Application:

Additive to reinforce
nutritional supplements

- 100% natural
- Clinically proven
- Quality guarantee
- Paraben free
- Cruelty Free
- Kosher Certification
- Halal Certification

Made in Argentina
