

Solution to stimulate the avian immune system

Botanical Complex
Anthraquinones and Sesquiterpenes

What is **vålfar active defense**?

Powerful botanical complex to stimulate the Immune System in Commercial Layers, Broilers and Breeding Birds, based on Anthraquinones, Sequiterpenas, Vitamins Complex B1, B6, B9, B12, A, D3 and developed with the most advanced phytotechnology.

For what **vålfar active defense**?

Indicated to improve the immune function in poultry and protect them from pathogens such as viruses, bacteria and parasites, which may compromise their health and development, thus maximizing their productivity and tolerance to diseases.

It is a 100% NATURAL product suitable for increasing vitality in high-performance birds that may present immunosuppression and fatigue.

Why **vålfar active defense**?

Its exclusive formula combines active vegetable ingredients, with high concentrations of essential amino acids, minerals and vitamins, which strengthen the animal's immune system, increasing its resistance and natural vitality. Immunoprotective, Decongestant, Bronchodilator.

With vålfar active defense, your farms will stay healthy without the need for antibiotics, corticosteroids, or pain relievers (steroids / non-steroids) to obtain meat suitable for human consumption.
