PHYTOREP®

*Effective protection
in harmony with nature*

PHYTOREP® - Vegetal Insect Repellent Lotion is a highly effective natural and sustainable solution that has been developed by experts in phytotherapy. It carefully combines Camphor and Peppermint tree extracts, known for their repellent properties, with the highest plant technology (Phyto-Technology) to offer superior protection.

Its exclusive formulation is based on 100% plant-based active ingredients, without alcohol, chemicals, or petroleum derivatives. This natural formula **safely and effectively repels flies and mosquitoes**, helping to prevent the annoying bites that can transmit diseases such as Dengue, Chikungunya, Zika, and others.

Unlike citronella and other traditional repellents, PHYTOREP® is **a healthy alternative that overcomes insect resistance while caring for and protecting the skin**. It is ideal for accompanying and protecting outings, getaways, family park days, and adventures.

Its spray atomizer presentation (without synthetic aerosols) ensures **convenient and efficient dosage**, avoiding unnecessary product waste and contributing to the preservation of our planet.

PHYTOREP® is **gluten-free, paraben-free, and sulfate-free, and its composition is minerals-free**. Its soft and light texture allows rapid absorption into the skin, without leaving stains or residue.

KEEP FLIES AND MOSQUITOES AWAY AND SAY GOODBYE TO BITES!

DEVELOPED BY **BASEL- PHYTOTHERAPEUTIC MEDICINAL LABORATORY**.
ALL OUR PRODUCTS ARE MADE WITH CERTIFIED RAW MATERIALS, FREE OF PESTICIDES AND UNDER STRICT HYGIENIC-SANITARY CONDITIONS, ENSURING QUALITY AND EXCELLENCE.

- Approved by ANMAT- Ministry of Health. Quality guarantee

PHYTOREP® - Vegetal Insect Repellent Lotion, is a powerful botanical complex for topical use, designed so that you can enjoy nature without interruptions.

Don't compromise your well-being or the environment with repellents that contain harsh chemical ingredients. Choose PHYTOREP® and enjoy natural protection for everyone.

HOW TO USE: Apply the spray generously to the entire body and face every 2 or 3 hours. It should be reapplied to maintain protection.

PRECAUTIONS: Protect from direct sunlight, so as not to alter the properties. External use. Do not eat. This product was not formulated for use in children. Keep out of their reach. In case of contact with eyes, wash with plenty of water.

WARNINGS AND OTHER PRECAUTIONS

Do not apply repellents on cuts or on irritated skin;
Do not apply near the eyes, nose and mouth or on the hands, especially in children;
Do not allow children to apply this product to themselves or others;
Keep the product away from the reach of children and pets;
Avoid excessive and repeated application and wash the treated skin daily with soap and water;
In case of poisoning and/or adverse reactions, contact the National Poison Center (tel. 0800-333-0160 or (011) 4658-7777 / 4654-6648 / 4658-3001/3020) carrying the container or label of the product;
Do not handle food after applying or applying a repellent without first washing your hands;
In case of contact with eyes, rinse immediately with plenty of water. If symptoms persist despite washing, consult a doctor;
For use in pregnant or lactating women, consult your doctor.
Do not use repellents in insufficiently ventilated areas;
Do not apply directly to the face: first spray on the hands and with these distribute the product on the face, then wash the hands;
Do not bring the container near the fire. Do not spray on flame;
Dispose of the empty container properly.
