

BOTANICAL COMPLEX FOR VETERINARY USE IN CAMELIDS

# **A natural solution for the airways and lungs**

100% natural product based on Flavonoids and Coumarins

The natural alternative  
to enhance health and  
vitality in camelids

### What is **strong camel® respiratory**?

Powerful botanical complex to treat the respiratory and pulmonary tracts in high-performance camelids based on Flavonoids and Coumarins, developed with the most advanced phytotechnology.

### To what **strong camel® respiratory**?

Indicated to improve breathing and vitality in racing camelids that present chronic cough, mucus and fatigue.

It is common that at the beginning and during the exercise, the airways become obstructed due to the presence of external agents (dust, gases, mold, etc.), which generates irritation, allergies and even bronchitis and bronchiolitis.

Unlike bronchodilators, this product does not cause tachycardia or affect the heart rhythm, allowing a recovery of oxygenation in a completely natural way and without compromising the health of the animal.

### Why **strong camel® respiratorio**?

Its exclusive formula combines plant active ingredients, with high concentrations of minerals and vitamins, which strengthen the respiratory system, reducing fatigue and psychophysical exhaustion of the animal.

DEVELOPED BY **BASEL- PHYTOTHERAPEUTIC MEDICINAL LABORATORY**.  
ALL OUR PRODUCTS ARE MADE WITH CERTIFIED RAW MATERIALS, FREE OF  
PESTICIDES AND UNDER STRICT HYGIENIC-SANITARY CONDITIONS,  
ENSURING QUALITY AND EXCELLENCE.
