What is Basel Quelat Plus®?

It is a cutting-edge nutritional supplement that combines **Magnesium, Zinc and Selenium Chelates**, essential minerals for the optimal functioning of the human body. Its innovative formula, with minerals in chelated form with high bioavailability, ensures superior absorption and maximum use by the body. Contains:

- **Magnesium Chelate:** Fundamental for muscle, bone and cardiovascular health, in addition to offering antioxidant protection and acting on various biological processes in the body.
- **Zinc Chelate:** Promotes healthy skin, strengthens the immune system and combats oxidative stress.
- **Selenium Chelate:** Protects cells, stimulates hair and nail growth, strengthening them, and improves immune and liver function.

These minerals are vital for a variety of functions, such as hormone synthesis, tissue formation, and their participation in key enzymatic reactions.
